

YOUR GUIDE TO GIVE AT WORK

Give at Work (GAW) is a web-portal that allows your employees to contribute to charities and causes through online donations.

Employees can make donations through various methods like credit cards, checks, and payroll deductions.

The software also provides real-time dashboards and reports to track your impact and measure campaign performance!

EMPOWER YOUR EMPLOYEES

Employees can update their donor records, addresses, email addresses, and communication preferences.

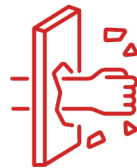

ACCESS ON-DEMAND REPORTING

Access real time data including # of donors, total donation amount, average gift, and one-time gifts vs. recurring gifts

CREATE GIVING CAMPAIGNS

Offer a seamless donor experience through mobile giving, minimal clicks to give and simple donation pages.

REMOVE BARRIERS TO GIVE

Employees may select their preferred method of giving by choosing a charitable organization or cause, along with a payment option such as credit card or payroll deduction.

CUSTOMIZE YOUR GIVE AT WORK WORKSPACE

UPLOADING YOUR COMPANY'S LOGO

Please send it to United Way following these guidelines:

- Maximum image **height of 40px and width of 330px**.
- Logos must be in the Portable Network Graphic format (.png).
- Email to **ResourceDevelopment@unitedwaygcr.org**

GIVE AT WORK OFFERS SEVERAL LOGIN OPTIONS TO SUIT YOUR NEEDS!

IDENTITY ACCOUNT SERVICE

A secure system allowing employees to create personal donor accounts.

An employee roster is submitted to UWGCR from your company to create user identities in advance.

Email Invitations are sent to employees with a link to set up their credentials.

Login is securely authenticated using data matched to roster.

SELF-REGISTRATION

A simple way for employees to create donor accounts without an employee roster.

Anyone with the link can register and donate – making this option ideal for retirees and new hires.

No employment verification – accounts are not tied to employee records.

Giving history is not available with self-registration account.

SINGLE SIGN ON (SSO)

A secure login allowing employees to access GAW using their existing workplace credentials.

UWGCR will work directly with your IT department to set up SSO.

GAW is compatible with any IdP using SAML v2.0.

An employee roster is submitted to UWGCR from your company to create user identities in advance.

GIVE AT WORK INCLUDES AUTOMATED EMAILS THANKING EMPLOYEES FOR DONATIONS!

To prevent your company's email servers from rejecting Give at Work emails as spam, **please work with your IT Department to ensure that your domain has an SPF entry which includes the IP address 198.37.149.123, and that the IP address is whitelisted.**
